

THE AMERICAN REVIEW OF REVIEWS

JANUARY-JUNE, 1919

The alphabetical arrangement of the subject matter is modified in some instances by the grouping of related topics under such headings as Aviation, Congress, Europe, Finance, Peace Conference, Reconstruction, Soldiers and War. So far as space permits, cross-indexing of topics to general headings has been used. For material involving various countries, it will be best to look under the name of the nation or under the heading, "Peace Conference." Pictures of interesting personalities are grouped under the heading, "Portraits."

Letters in parenthesis signify nature of article, as (C) contributed article; (Ed.) editorial; (L) "leading article" (digested from another source); (il.) illustrated; (port.) portrait; (R) book review.
